Mr James Ingraham
Resource linC.Com
45 White Pine Drive
Sewell, NJ 08080

Dear Mr. Ingraham

We would like to thank you for the HIV/AIDS Education, Prevention and Awareness program that you have so diligently developed with the BDF uniformed personnel. The feedback that we are getting from the AIDS Coordinating Office shows that the program has been one of cooperation, inclusion and cultural sensitivity.

All your efforts are being taken seriously as evidenced by the number of people who have been trained. The BDF has held a weeklong training of 594 soldiers and has held classes of 284 officers and men using some elements of the training manual that your company developed collaboratively with the BDF. Our trainers are exploiting computer technology, which is part of the training package to disseminate information and feedback each other on their activities.

We realise that the war against HIV/AIDS can only be won if joint efforts prevail, especially with experienced companies and parties like ResourcelinC, amongst others. For that reason we thank you for the time we have had to benefit from your assistance, dedication and professionalism.

We wish you the best in future endeavours.

Yours Sincerely

Brigadier O. Tiroyamodimo
For/Commander, Botswana defence Force
