Sewell, NJ 08080
FAX: (856) 582-7348

Dear Mr. Ingraham,

I personally want to thank you and your organization for the HIV/AIDS prevention, education, and awareness program material you developed for the Botswana Defense Force (BDF). I, along with several other members of the U.S. Embassy country team, found the materials informative, easy to understand, culturally sensitive, timely and of such high quality. I think your educational materials are right on target and properly address the several leading causes of the spread of HIV/AIDS such as misinformation, myths, culture, and women's rights.

I also want to thank you on behalf of the BDF leadership. Brigadier Tiroyamodimo and others have expressed their positive comments about your organization to me on several occasions. I sincerely believe that any training that assists the BDF in fighting the pandemic of HIV/AIDS should be supported whenever possible and your organization is certainly doing that with your high quality educational material and incredibly realistic "Deluxe Condom Training Model".

Again, I want to thank you, Pennie Hopson, and the entire ResourceLinC family for your assistance, professionalism, and dedication to providing the BDF with the best HIV/AIDS prevention training and educational material available

Warmest Regards
